

## MOUNT THE BRACKETS

### BEFORE YOU BEGIN

Check your 'Measure' sheet to determine the configuration of the blind.

You need to determine what type of surface you are mounting your bracket to. Pre-drill using the brackets as a guide. Ensure you use appropriate plugs and masonry tools if mounting into brick or stone. It's best to install brackets on studs if possible.

#### TIMBER

We recommend predrilling holes and use 25mm button head screws

#### PLASTER

We recommend a wall anchor.

#### STONE, CONCRETE, BRICK, TILE

Use a masonry drill with appropriate screws, anchors and plugs

There needs to be a maximum 300mm between brackets to ensure the strength of the blind. Secure brackets with one screw only, once satisfied with position proceed to secure brackets in place using the second screw. Make sure to mount brackets where they will not interfere with vertical mechanisms.

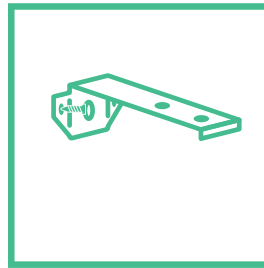

## INSTALL - FACE FIT

TICK IF FACE FIT

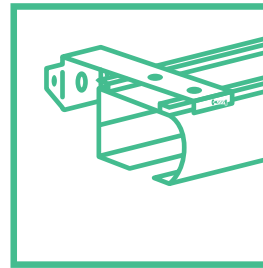

Screw clip into bracket, ensuring clips face the same direction.

Push lip of the track in and then rotate the other into place.

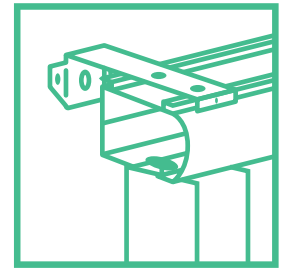

Simply feed slat into runners lean on a slight angle and the slat will sit inside the hook. And then hang the wand if ordered.

Screw in Clip

Fit Track to Clip

## INSTALL - RECESS FIT

TICK IF RECESS FIT

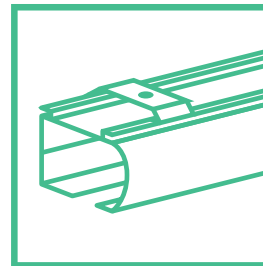

Screw clip into the recess, ensuring clips face the same direction.

Push lip of the track in and then rotate the other into place.

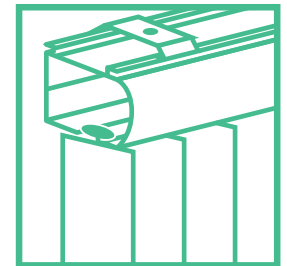

Simply feed slat into runners lean on a slight angle and the slat will sit inside the hook. And then hang the wand if ordered.

Screw in Clip

Fit Track to Clip

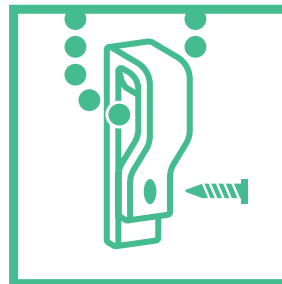

Hang slats

## INSTALL THE SAFETY CLIP

A child safety clip must be installed if the chain sits lower than 1.6 metres from the floor.

We here at **Blinds On Demand** take the safety of our kids very seriously.

Fit the chain into the loop of the clip. Pull the clip down until it is as tight as possible without placing tension on the chain. Screw into place.

### WARNING

WARNING: Young children have died by wrapping loose curtain and blind cords or chains around their necks. Secure cords or chains with cord guides or keep them out of reach by winding them around a cleat. Move cots and furniture away from window covering cords or chains. Do not remove this label.
